

Dancing with Angels in Heaven: Tidings of Hope from the Spirit Realm

by Garnet Schulhauser

Dancing with Angels in Heaven is the fifth book in the pentalogy of the author's encounters with his spirit guide, Albert. Garnet Schulhauser is a lawyer is going about his everyday life when he encounters an intriguing homeless man. As Garnet tries to dismiss him, the homeless man mentions something personal and intimate about Garnet's life that a stranger shouldn't know. Curious, Garnet begins a conversation with the man and soon learns that Albert is actually Garnet's spirit guide and he soon discovers that Albert is on a mission from the Spirit World to awaken him to the more important higher aspects of life.

In this, his fifth book in the series, the author recalls a trip to the Spirit Side to observe an orientation class about planet Earth for souls

planning to incarnate. In this session, souls learn about the origin of the universe, the true nature of souls, the preparation of Life Plans for each new incarnation, the purpose of a human journey on Earth, the role of spirit guides and guardian angels in our lives, the joyful transition of souls back to the Spirit Side in the afterlife, and the illuminating aspects of the Life Review we will all enjoy after leaving our bodies behind.

The book affirms that God (Source) does not make rules for us to follow and does not judge or punish souls for what they did on Earth, which means that all souls return to the Spirit Side regardless of what they did during their lives.

In the Spirit Realm, he was thrilled to meet several famous historical figures, including Albert Einstein, Marie Antoinette, and Mother Teresa, who recalled the wisdom they had gained from their lives on Earth.

On the Earth plane, the author travelled to the underground caverns in Area 51 where he saw the spacecraft that crashed near Roswell, New Mexico in 1947, along with the bodies of the little aliens who perished in the mishap. Albert confirmed to the author that these aliens are one of several advanced and benevolent ET races who have been visiting our planet for eons.

The author describes an astral excursion to a distant planet inhabited with intelligent reptiles who are able to convert energy from their sun into sustenance for their bodies, as well as a trip to Earth in a parallel universe where humans learned to drastically reduce pollution by developing a technique to teleport people and goods from place to place without burning fossil fuel.

His most fascinating experience was listening to a conversation with three wise Masters, Jesus, Mohammad, and Moses, who discussed returning to Earth some day as a much needed messiah to lead humans onto the path of spiritual enlightenment.

Albert's sage-like revelations to life's big questions is a must read for both novice and advanced spiritual seeker alike. Albert deals with sensitive issues such as the death of a young one in a compassionate, yet clear to understand manner... hopefully bringing comfort to those coming to terms with their mental/spiritual anguish. Other topics addressed include the timing of a passing from a soul's perspective – answering natural questions such as physical pain at the moment of death and the moment of a soul's entry into the physical body. He also explains the inter-relationship between mind, body, spirit and our personal, collective relationship with God.

Albert's clear explanations of complex issues are nectar to those seeking spiritual knowledge. We hear it straight from the 'horse's mouth' – from someone who has visited the higher side of life; offering proof positive that we all survive physical death and that life is immortal. Dealings with organized religion with their subjugation and control elements may be, at first, uncomfortable with some. So take a fresh look and see Life from Albert's point of view... it will all make sense! In conclusion, Schulhauser's books are a concise reference for anyone seeking answers to the meaning of our earthly lives and our relationship with the Greater Reality. It debunks some old notions on subjects which were considered taboo – advocating free will and free thinking for a new age of consciousness.

I've been studying all kinds of spiritual books for decades and this book series answers most of the common spiritual questions with clear and concise answers about how and why the Universe works the way it does and is very consistent with most of the other writings in the numerous books I have read.
